Ambassadors Meeting

Tuesday 21st March

Discussion of Homework

Minutes from the meeting:

In attendance:

Grace, Violet, Iris, Joel, Martha, Ellie

Absent:

Joseph

Notes:

Most children agreed that most children found homework “about right” no too hard or easy, some children said they found it easy, but others found it hard too.

Children said that homework took about 15-25 minutes to complete, when they complete it. But this wasn’t completed every day.

Most people said that they do not need help from adults at home to complete their homework.

Children said that homework helped them to remember key information from what they have learned in lessons.

Some suggestions from children said they might like more homework. Looking at having more/different timetables to practise and use spellings on paper, rather than all online.

Next Steps:

- Feedback to M and D ambassadors at the next meeting
- Finalise homework expectations for all
